# Cookies Policy

Cookies or data storage and retrieval devices are files sent by a website to users' browsers that are automatically stored on their devices so that the website is able to check users' previous browsing habits and "recognize them".

Cookies are able to remember other kinds of personal information, such as a user's password so that it does not have to be entered each time a website is visited, or user preferences as regards the configuration of a website (language, screen resolution, amongst others).

Cookies are essential for the Internet to work properly, as well as having many advantages in the provision of interactive services as they make browsing and using the Website easier. Cookies cannot harm your devices, and while they are enabled they help identify and solve errors.

In short, a cookie is simply a set of data about browsing habits that is stored on a user's device and that websites detect and recognize so that they are able to "remember" that user's browsing habits.

Further information is given below about the cookies used on the website. In particular, the following can be highlighted:

- **Session cookies.** These cookies are designed to collect and store data while a user is browsing a website and they are deleted once the session is over. The information obtained through these cookies serves to analyze Internet traffic patterns. Overall, this makes it possible to improve browsing experiences, enhance content and facilitate its use.
- **Analytical cookies.** They enable cookie managers to monitor and analyze the behavior of users on the websites to which they are linked.

**This website uses both session cookies and analytical cookies to enhance its users' browsing experience.**

Below are details of the cookies used on our website and the purposes of each of them.
